

At TasNetworks we've implemented a number of measures to ensure everyone's safety and wellbeing.

What we need you to do:

- Complete the TasNetworks check-in and COVID-19 declaration at reception when you arrive on site
- Bring your own PPE incl gloves, HiVis, helmets etc and stationery (pen and note book). We will advise you what to bring at course enrolment and we'll check that you have these when you arrive on site
- Follow all signage and directions from your Trainer/Assessor to maintain hygiene protocols to keep everyone safe
- Use hand sanitiser upon entering the kitchen/lunch room and sanitise tables after use. Use the outdoor tables, as weather permits
- Sanitise plant and machinery controls i.e. steering wheels, joysticks etc, before and after use
- Let us know if you have any queries or concerns while you are with us

What we will do:

- Our Trainer/Assessor will maintain the Attendance Record - participant sign-on is no longer required
- We limit class sizes to the maximum number of occupants permitted in each training room
- Each training room has hand sanitizer, wipes & tissues
- Practical training is carried out 1-on-1 with appropriate hygiene and distancing protocols where applicable
- Disinfect on a daily basis all desks, counters and common areas including door handles, fridge doors, lunch area tables etc
