

emPOWERing Farms Trial Network Tariff Analysis

Supporting our agricultural customers to make better energy choices

What's in it for you?

- Through the trial, you'll receive a personalised load profiles report, with network tariff options and recommendations to help you make better energy decisions
- You can have your say on the motivations and barriers behind behavioural change, including pricing options
- Provide feedback to help improve how we communicate with you.

Participant Criteria

- Have you had an interval meter installed for at least 12 months?
- Are you a business or irrigation tariff customer?
- Are you keen to have your say via a short survey?
