

Course Overview

UETTDREL14

Working safely near live electrical apparatus as a non-electrical worker

DESCRIPTION

This course covers compliance with working safely up to the defined “safe approach distance” near energised electrical apparatus (inc. electrical powerlines) for non-electrical workers.

The work functions that would benefit from this training include plant operators, painters, vegetation control, riggers, scaffolders and other persons that need to work safely and comply with requirements and established procedures near live electrical infrastructure.

CERTIFICATION

On successful completion, participants will receive a Statement of Attainment for *UETTDREL14 Working safely near live electrical apparatus as a non-electrical worker*.

Expiry period: Five (5) years from date of certification.
