

Stand-Alone Power system (SAPs) Register

TasNetworks maintains this register in accordance with clause 6.2.3 of the Australian Energy Regulator's (**AER**) Electricity Distribution Ring-fencing Guidelines (**the Guidelines**).

- (a) The Guidelines require that TasNetworks establish, maintain that identifies, for each regulated stand-alone power system used by the DNSP to provide other services:
- i. the local government area in which the regulated stand-alone power system is deployed;
- ii. the number of premises served by the regulated stand-alone power system;
- iii. the maximum demand, in kW, served by the regulated stand-alone power system;
- iv. the aggregated annual average energy consumption, in kWh, of the premises served by the regulated stand-alone power system;
- v. the revenue earned by the DNSP for providing other services by means of the regulated stand-alone power systems in the current calendar year; and
- vi. whether the DNSP has made a request, in writing, for the supply of the other services by another legal entity (other than an affiliated entity of the DNSP).
- (b) No later than 15 January, 15 April, 15 July and 15 October each year, a DNSP must publish, on its website, an updated version of the register referred to in clause 6.2.3(a). The DNSP must ensure that the information published in each updated version is current to the end of the calendar month that is immediately prior to the required publication date for that updated version under this clause 6.2.3(b).

Table 1: Regulated SAPs Information

Local Government Area	# of Premises	Maximum Demand (kW)	Aggregate average energy consumption (kWh)	Revenue earned	Other services
Nil to report	Nil to report	Nil to report	Nil to report	Nil to report	Nil to report
