

Land Use Planning Application Form

Step 1: Go to [LISTMap](#) and apply the 'Electricity Transmission Infrastructure Protection Code Overlay' layer. If your proposed development is located in southern Tasmania, you should also apply the 'Tasmanian Planning Scheme Overlay' layer to the map. These layers will display current electricity transmission corridors, communication sites and substations, as well as their protected areas.

Step 2: If your proposed development is to be located inside an identified area within either of these layers, please complete this form and send it to us at landuseplanning@tasnetworks.com.au for review.

Applicant Details

Full name(s)

Postal address:

Phone:

Email:

Details of proposed development

Type of application:

Select from drop down
